

## Work Safe... Drive Safe

Spring is officially here, even if it doesn't feel that way! Just because the weather is starting to warm, doesn't mean your driving cares have melted away.

Soon, you'll be sharing the road with motorcyclists, bicyclists, and pedestrians. Be aware that as the weather gets nicer – more people will be on the roadways.

You know the saying: "Spring showers bring April flowers." Just remember, those showers also make the roads slick. So, slow down and increase your following distance when roads are wet.

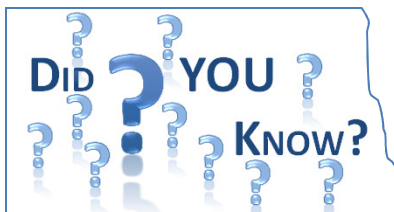

Think Spring! And, as always – Buckle Up!
